

Fort Madison Marina Project

Proposed recipient:

City of Fort Madison

Recipient address:

811 Ave E, Fort Madison, IA 52627

Requested amount:

\$750,000

Explanation of request:

This project will complete waterside improvements to Fort Madison Marina to increase public access to the Mississippi River for recreational, economic and tourism opportunities. The waterside improvements will enable basic marina operations that are presently impacted by sedimentation, inadequate bank protection, and strong river currents. Increasing access through the waterside improvements is expected to lead to additional investments into other parts of the marina, serving area residents and visitors.
