

Scott County Bridge Replacement

Proposed recipient:

Scott County Secondary Roads Department

Recipient address:

950 E. Blackhawk Trail, Eldridge, Iowa 52748

Requested amount:

\$600,000

Explanation of request:

The Scott County Secondary Roads Department seeks Community Project Funding from Congress for a bridge replacement project located at 250 feet northeast of 18378 Wells Ferry Road, Pleasant Valley, IA 52767. This bridge is on the National Bridge Inspection system and considered structurally deficient.

The bridge is in poor condition due to transverse cracking, spalling, delamination, and leaching in the deck, and the substructure has failed sheet pile extensions, cracking, spalls, an exposed footing and erosion.

This project is programmed in Scott County's Five-Year Transportation Program that is strongly supported and approved by the Scott County Board of Supervisors, which represent the citizens of Scott County. The bridge is located on a Farm-to-Market route, is an Urban Collector, and averages 1,000 vehicles per day. If this bridge is not replaced, traffic will be required to travel a minimum of 3 additional miles for access. This road is an integral part of the Scott County transportation system.
