

Summer Street Corridor Rehabilitation in Burlington, Iowa

Proposed recipient:

City of Burlington
400 Washington Street
Burlington, Iowa 52601

Requested amount:

\$4,000,000

Explanation of request:

The Summer Street Corridor Rehabilitation Project is a complete project as it encompasses roadway work, watermain replacement, storm sewer installation, installation of a trail, parking lot work at the Fire Department, and rework to the Regional Airport's driveway/parking. The reconstruction of this main arterial roadway will bring a much-improved corridor that connects the Regional Airport and south part of town. Safety, connectivity, and pedestrian access are the benefits of this project. The project will widen the roadway, install a bike and pedestrian trail, and new lighting.
