

Sewer Lagoon Improvements Project – City of Mediapolis

Proposed recipient:

City of Mediapolis
510 Main Street
Mediapolis, Iowa 52637

Requested amount:

\$2,000,000

Explanation of request:

The funding would be used for modifications to the sewage treatment lagoon system to meet ammonia effluent compliance. The project includes aeration improvements, supplemental treatment processes, and infiltration and inflow correction in the sewer collection system. These improvements will allow the City to achieve compliance and no longer face enforcement action from Iowa DNR.
